

Laptop Depot™ Product Family

The Laptop Depot™ is designed to store small quantities of laptops in a classroom or training facility application.

Providing easy tracking of laptops and faster deployment, students spend less time getting their laptops and more time learning on them.

Place units side by side without cord interference or make them mobile to suit your needs. Also works with tablets.

LTD5 shown

All Models

- Stores between 5, 8, and 10 laptops depending on model
- UL/CSA approved power strip
